

June 2016

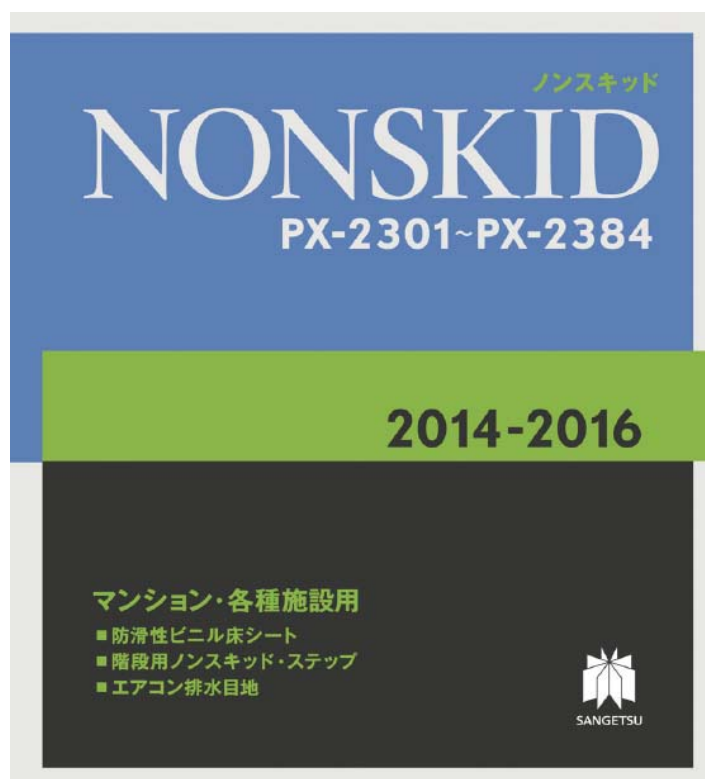

Dear Valued Customers,

We would like to thank you for your continuous support.

We are happy to introduce to you our NONSKID collection. NONSKID is anti-skidding vinyl flooring which is designed to be used in corridors and balconies of condominiums. This kind of product may not be familiar outside Japan but its usage is limitless.

Please feel free to let us know if you have any questions and we would love to hear your feedbacks.

Best regards,
Sangetsu Co., Ltd.
Overseas Business Division

Catalogue Concept

NONSKID is a collection of anti-skidding vinyl floorcoverings. They are used regularly in corridors and balconies of condominiums in Japan, where it can get slippery when it rains.

Recently our NONSKID has become more popular among people with pets. The owners have chosen our NONSKID to protect their pets from slipping which can give some physical stress to them. Based on this new demand we have developed new designs which can also be used inside the houses as interior decoration.

Special Features

● Flat Embossing

The embossing is flat which will not disturb cruising of wheels, such as strollers.

● Semi-outdoor Use

Available to use in outdoor places with roof.

● Easy Cleaning

Embossing which dirt and dust can easily be removed.

● Green Product

More than 15% of the ingredient is using recycled PVC resin.

● Outdoor Use

Weather-proof items which can be used in outdoor places without roof.

Products

Different width are available. All items are available in **S** and **W** widths unless mentioned below.

S width: 132 cm

M width: 162cm

W width: 180cm

PX 2301-2303

BRIGHT LINE

Different embossing is used on the surface which will shine from different angles. Plain color base will give more shine to it but dust and dirt will be very visible. We have done many test production to find the best balance of the shine and its dust invisibility.

PX 2304-2305

GRADATION

When you lay this on the floor you will be surprised by its depth. Please request us a bigger sample to see its 3D effect.

PX 2306-2608

CARPET-LIKE

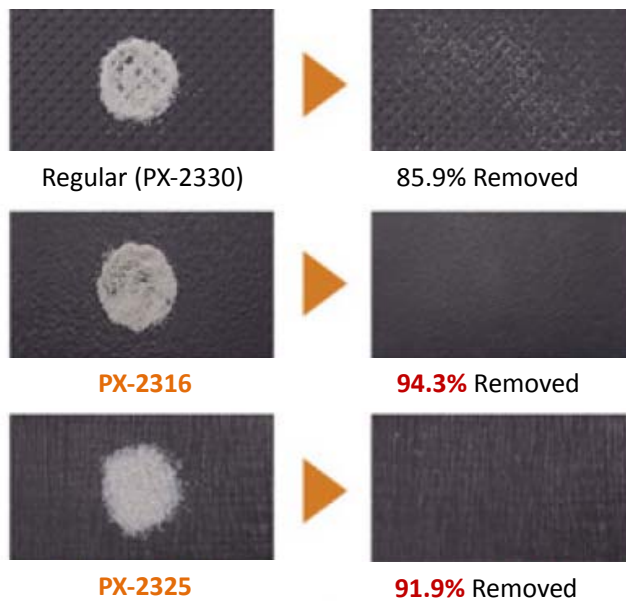

Our best-selling design. This random pattern will make joints less visible.

● **Easy Cleaning NONSKID (Pg. 7)**

Easy Cleaning NONSKID has the best embossing shape and depth which realizes both quality of “non-skidding” and “easy cleaning”. It is flat and do not disturb cruising of wheels but will prevent slipping.

[Test]

Observed how much sand was removed after four swipes using a broom. (2 vertical and 2 horizontal direction.)

PX 2317-2320

PLAIN SAND

The four colors are also available in NONSKID Step (for stairs.)

PX 2321-2334

STITCH LINE

New printed design NONSKID in semi-outdoor use quality. Printed design for NONSKID was only available for indoor use due to low-resistance to sunlight of the printing ink. After our research we have come up with printing ink which can endure the use in semi-outdoor. PX 2323 and 2324 are available in NONSKID Step.

PX 2325-2337

WOOD

NONSKID is available now in wood pattern. Embossing in vertical direction to wood grain will drain water smoothly. We highly recommend this to be used in balconies to enjoy the uniformity of indoor flooring and the balcony.

PX 2328-2329

STONE

This random stone tile design is recommended to be used also on floors inside the rooms.

● **Basic NONSKID (Pg. 11)**

PX 2330-2335

DIAMOND

Our best-seller. Available in S, M and W widths.

PX 2336

TURF

Available only in S width.

PX 2347-2349

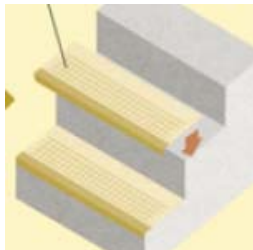

SLATE

Easy Cleaning NONSKID. Special embossing is used to express realistic texture of slate tiles and add non-skidding quality. Available in only W width.

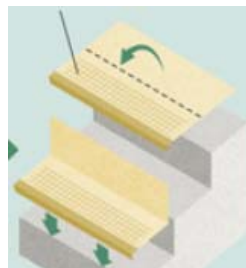

● **NONSKID Step (Pg. 17)**

NONSKID Step is designed to be used on stairs. There are two types and each come in two widths.

Each has matching NONSKID design.
